**SECTION 4: ADDITIONAL INFORMATION REQUIRED (To be completed by Local Floodplain Administrator). The applicant must submit the following documents which are applicable to the development before the application will be processed.**

- A site plan showing the location of all existing structures, water bodies, adjacent roadways, lot dimensions, utilities, and proposed development improvements.
- Development plans, drawn to scale, and specification, including where applicable: details for anchoring structures, proposed elevation of lowest floor (including basement), types of water-resistant materials used below the first floor, details of floodproofing of utilities below the first floor, and details of enclosures below the first floor.

Additionally, supporting data must ensure that there will be no adverse impacts to any adjacent properties (both upstream and downstream) of the proposed development without documented landowner approval.
