

# NEW LIBRARY survey results

New Library news! Remember in November 2015, Cedar Park voters approved bond funding to build a new Library. Plans evolved to include the new Library in the Bell District, as part of the Bell Redevelopment Project. In February, we kicked off the design process with a community engagement survey – in which you told us what you like most, what you want to do when you visit and what excites you most about the Library. Here's what our community had to say.
