

THE CITY OF CEDAR PARK LOVES

Monarch Butterflies

The City of Cedar Park

is proud to participate in the National Wildlife Federation's Monarch Recovery Initiative.

HELP THE BUTTERFLIES!
What the City is doing & how YOU can help

limit(s) mowing where possible to avoid destroying milkweed

limit(s) the use of pesticides

plant(s) milkweed

Pro tip

Plant milkweed in the fall for spring Monarchs!

Common Food Sources

Common Milkweed
Milkweed Flowers
Goldenrod

Cedar Park is part of the Monarch butterfly's migration pattern, as they make their way from Mexico to Canada each year.

Milkweed is rapidly disappearing due to the use of pesticides & land development.

This is milkweed. Monarch caterpillars ONLY eat milkweed.
