

# 2023 Water Conservation Survey

(November 15-November 30)

## 1,147 Respondents

- 98% of respondents live in Cedar Park
- 99% of respondents are aware of water conservation guidelines or restrictions in the City of Cedar Park
- 44% of respondents are aware that water conservation measures are triggered by extreme drought impacts to Lake Travis
- 43% of respondents learned about our water conservation campaign from the Pulse Newsletter, 15% from the bandit signs and 13% from social media
- 37% of respondents have visited the water thrifty website
- In addition to reducing outdoor watering, respondents' favorite water-saving tips were taking shorter showers, turning off the faucet when brushing teeth and running a full dishwasher/washer.
