

Notice of Updated Fire Protection Fee Schedule

On December 21, 2023, City Council adopted amendments to Cedar Park Code of Ordinances Appendix A, Fee Schedule, Article 2.000 Development Service-Related Fees and Article 4.000 Fire Protection Related Fees. Following passage of House Bill 1922 by the 88th Texas Legislature, staff undertook a comprehensive review of both Articles of Appendix A and found that a majority of the existing fees had been adopted 20+ years ago. After comparing our existing fees to those of our benchmark cities, many of the fees were found to be below those of our benchmarks. The following fee comparison table shows the existing fees, as well as the newly adopted fees for Fire Protection related fees. [Click here to view the complete adopted ordinance.](#)

The newly adopted fees will go into effect on February 1, 2024.

§ 4.100 Fire protection related fees.
